MEMORANDUM FOR AIR EDUCATION TRAINING COMMAND/L~MIQ

SUBJECT: USAF Deficiency Reporting and Investigating Program Concern2

With regards to your memorandum, subject as above, dated September 4, 1997, the deficiency reports you are concerned with involved three of our Defense Supply Centers: Defense Supply Center Richmond, Defense Supply Center Columbus, and the Defense industrial Supply Center. We have investigated the problem and have determined that PQDR exhibit shipping disposition provided to the Air Force origination point by our Supply Centers are well within the requirements of the Joint PQDR Directive of 60 days. However, our action point did not inform your screening points of our disposition action provided to the origination point. Therefore, DLA Supply Centers

Mr. Duane Rice of this office addressed this issue at your October 20-24, 1997 Air Force Deficiency Reporting Workshop at Eglin AFB, Florida. The action taken will eliminate the problem that you had with PQDR exhibits. Please feel free to notify us of any quality-related problems you may have in the future.

Point of contact is Ken Gibson, MMLEQ, DSN 427-2631 E-Mail:
